

3-D Sod®

HARVESTER BLEND

Faster Sod Harvesting

Developed to focus on harvesting sod faster. The varieties and percentages were selected for their attributes to harvest sod faster yet still maintain the proven 3-D Sod Quality benefits. Varieties selected for this blend are proven to establish rapidly, as well as display the spreading traits to fill in open areas of the sod field during grown in. Open areas in the sod field can often be the limiting factor in harvesting, you now have a solution.

- Focused on Harvesting Sod Faster
- Spreading Varieties Fill in Voids in Sod Field
- Very Responsive to Nitrogen
- 3-D Dark green color
- Time to Harvest Is Decreased
- 3-D Sod Quality Benefits

DARKER:

3-D Sod has been specially designed to yield a naturally darker turf. Simply put, this means less fertilizing! You'll be able to have the same rich green lawn you expect without the use of costly and sometimes harmful chemicals.

DENSER:

Aside from the aesthetic beauty of a thick lawn, 3-D Sod's improved density will help compete with weeds by actually squeezing them out! Plus, 3-D Sod will green-up quick in the spring giving you the first green lawn on the block.

DWARFER:

Our 3-D Sod provides less vertical growth and a lower canopy height. It's an attribute with a benefit that is terribly simple to understand... less mowing! Stop spending all weekend working on your lawn rather than just enjoying it.
