

3-D Sod®

HYBRID BLEND

Solutions for your Environment™

Combining Seed Technology

A combination sod blend that includes Enhanced Seed Technology™ seed and the industry standard RAW Seed. Reduce your input costs and increase your results at the same time. How often do you have an opportunity to increase results and reduce cost at same time? Increasing seedling survivability in marginal growing conditions is the key to uniform turf grass stands. 3-D Sod Hybrid Blend has a combination of Enhanced Seed Technology couple with the standard RAW seed. A great way to experience the attributes of Enhanced Seed Technology while still maintaining a level of RAW Kentucky Bluegrass seed in the blend.

- Reduce Your Blend Cost By 10%
- Increasing Germination & Seedling Survival Rates
- Blending New Technology with Old
- Increased results - Increased Profits
- Picking Up Where Mother Nature Left Off
- Enhanced Seed Technology™

DARKER:

3-D Sod has been specially designed to yield a naturally darker turf. Simply put, this means less fertilizing! You'll be able to have the same rich green lawn you expect without the use of costly and sometimes harmful chemicals.

DENSER:

Aside from the aesthetic beauty of a thick lawn, 3-D Sod's improved density will help compete with weeds by actually squeezing them out! Plus, 3-D Sod will green-up quick in the spring giving you the first green lawn on the block.

DWARFER:

Our 3-D Sod provides less vertical growth and a lower canopy height. It's an attribute with a benefit that is terribly simple to understand... less mowing! Stop spending all weekend working on your lawn rather than just enjoying it.
