

# 3-D Sod®

## WATER STEWARD BLEND

## Drought Tolerant

100% Turfgrass Water Conservation Alliance (TWCA) Approved drought tolerant Bluegrass Blend. The varieties used in 3-D Sod Water Steward Blend are backed by science and have been selected by a peer group review process. This cutting-edge research has now set the standards for drought tolerant varieties that stay green longer in drought, and recover faster when coming out of dormancy. Couple these strong water-saving attributes with the known 3-D Sod turf quality standards. Water is the driver of the turfgrass industry.

- Water Conserving Sod – Reduced Water Use
- Varieties Selected/Approved By TWCA
- Meets TWCA Sod Specifications
- Backed by Scientific Research
- High Quality Sod Traits
- It's your turn to become a Steward of the environment

**If it's not 3-D Sod,  
It's Just Grass®**

### DARKER:

3-D Sod has been specially designed to yield a naturally darker turf. Simply put, this means less fertilizing! You'll be able to have the same rich green lawn you expect without the use of costly and sometimes harmful chemicals.

### DENSER:

Aside from the aesthetic beauty of a thick lawn, 3-D Sod's improved density will help compete with weeds by actually squeezing them out! Plus, 3-D Sod will green-up quick in the spring giving you the first green lawn on the block.

### DWARFER:

Our 3-D Sod provides less vertical growth and a lower canopy height. It's an attribute with a benefit that is terribly simple to understand...less mowing! Stop spending all weekend working on your lawn rather than just enjoying it.
